

SURGERY: BEYOND TRADITIONAL ABILITY

OPENING CEREMONY

THURSDAY 8:00-8:15 AM **JUNE 5, 2008**

PRESIDING OFFICER

Vijay Mittal, MD, FICS, United States Section President

Dr. Mittal is current Chair and Program Director, General Surgery, Providence Hospital and Medical Centers, Southfield, MI; Associate Clinical Professor of Surgery, Wayne State University, Detroit, MI

THE FUTURE OF HEALTHCARE

THURSDAY 8:15-9:45 AM **JUNE 5, 2008**

This course will exam current healthcare practices and how these current practices are influencing the need for change. Various viewpoints from both national and global perspectives will provide physicians with a stimulating forecast for their professional future and address the need and driving forces imperative for improving physician/patient relationships and care.

MODERATORS

Vijay Mittal, MD, FICS, US Section President, Chair and Program Director, General Surgery, Providence Hospital and Medical Centers, Southfield, MI; Associate Clinical Professor of Surgery, Wayne State University, Detroit, MI

Wickii T. Vigneswaran, MD, FICS, Professor of Surgery, Associate Chief of Cardiac and Thoracic Surgery, Director of Lung and Heart Lung Transplantation, University of Chicago, Chicago, IL

Healthcare: A Challenge for America

Sibu P. Saha, MD, FICS, Professor of Surgery, University of Kentucky, Chairman, Directors Council, Gill Heart Institute, Lexington, KY

Healthcare Systems

Diane Radloff, President, Providence Hospital and Medical Centers, Detroit, MI

Global Health Diplomacy

Thomas G. Crabtree, MD, Chief, Department of Plastic Surgery, Assistant Chief of Surgery, Tripler Army Medical Center, Honolulu, HI

Young Surgeons Perspective of Healthcare

Vijay Trisal, MD, FICS, Surgical Oncologist, Division of Surgery, Associate Professor, City of Hope Hospital and Medical Center, Duarte, CA

Outsourcing Healthcare

Mr. Doug Land, New York, NY

Necessity of Mission Work in Healthcare

Steve Remine, MD, Roanoke, VA

TRAUMA

THURSDAY 10:00 AM-12:30 PM **JUNE 5, 2008**

This course will present common trauma scenarios with innovative approaches to both management and teaching. The session will cover both complex and routine emergency situations.

MODERATORS

Ari Halldorsson, MD, FICS, Professor and Vice Chair, Department of Surgery, Chief, Division of Cardio-Thoracic Surgery, Residency Program Director General Surgery, Texas Tech University Health Sciences Center, Lubbock, TX

Noreen K. Durrani, MD, FICS, Clinical Assistant Professor, University of Florida, College of Medicine, Jacksonville, FL

The Iraq War and the Surgeon

Lisa Flynn, MD, St. Clair Specialty Physicians, St. John Hospital and Medical Center, Detroit, MI

Burn Management for the General Surgeon

Anthony Dardano, Jr., DO, FICS, Chief of Staff, Delray Medical Center, Vice-Chief of Surgery, Boca Raton Community Hospital, Boca Raton, FL

Traumatic & Post Traumatic Neurosurgical Events

Elpidio Sanchez Arellano, MD, FICS, Mexico City, Mexico

Cardiothoracic Trauma

Ari Halldorsson, MD, FICS, Professor and Vice Chair, Department of Surgery, Chief, Division of Cardio-Thoracic Surgery, Residency Program Director General Surgery, Texas Tech University Health Sciences Center, Lubbock, TX

Management of Pelvic Trauma

Sharmila Dissanaikie, MD, Assistant Professor, Department of Surgery, Texas Tech University Health Sciences Center, Lubbock, TX

Open Abdomen: Have We Gone Too Far?

Noreen K. Durrani, MD, FICS, Clinical Assistant Professor, University of Florida, College of Medicine, Jacksonville, FL

Airway Management

Kevin Hatton, MD, FICS, Chandler Medical Center, University of Kentucky, Lexington, KY

COFFEE BREAK

9:45 AM

SURGERY: BEYOND TRADITIONAL ABILITY

TRAUMA (cont.)

THURSDAY 10:00 AM-12:30 PM JUNE 5, 2008

Abdominal Compartment Syndrome

Eduardo Parra-Davila, MD, Departments of General and Colorectal Surgery, Boca Raton Community Hospital, Boca Raton, FL

Acute Scrotal Swelling in Infants and Children - When is Emergency Surgery Necessary?

Domingo T. Alvear, MD, FICS, Pinnacle Health System, Harrisburg, PA

Massive Blood Transfusion In Surgery

Ira Shulman, MD, Professor and Vice Chair of Pathology, USC, Keck School of Medicine, Los Angeles, CA

LUNCHEON FEATURING
DR. DENTON A. COOLEY

12:30 -2:00 PM

HEPATOBILOPANCREATIC MINIMALLY INVASIVE IMAGE-GUIDED INTERVENTIONS

THURSDAY 2:00-4:30 PM JUNE 5, 2008

This symposium will address the complete HPB experience in general surgical training. Preoperative interventions for liver resection including portal vein embolization, chemoembolization and tumor ablation will be explored. Percutaneous and endoscopic interventions for bile duct injuries and minimally invasive palliation (including stents, management, and complex biliary reconstructions) for malignant obstructive jaundice will be the major focus for participants.

CHAIR LIVER SYMPOSIA

Gazi Zibari, MD, FICS, Professor of Surgery, Malcolm Fiest Endowed Chair in Transplant Surgery, Director of W.K./L.S.U. Regional Transplant Program L.S.U. Health Science Center, Shreveport, LA

MODERATORS

Hoonbae Jeon, MD, FICS, Chandler Medical Center, Transplant, University of Kentucky, Lexington, KY

Quyen D. Chu, MD, FICS, Associate Professor of Surgery, Director, Surface Malignancies Program, Louisiana State University Health Sciences Center, Shreveport, LA

HPB Experience in General Surgery Training

Yeon-Jeen Chang, MD, FICS, Providence Hospital, Southfield, MI

Combined RF Ablation and DC Bead Chemembolization in Hepatocellular Carcinoma

Professor. Dr., Riccardo Lencioni, Diagnostic and Interventional Radiology, Oncology Department, University of Pisa, Pisa, Italy

SURGERY: BEYOND TRADITIONAL ABILITY

LAPAROSCOPIC COLECTOMY FOR COLON DISEASES

THURSDAY 2:00-5:30 PM **JUNE 5, 2008**

This course is designed for general and colorectal surgeons who are currently performing advanced laparoscopic procedures and are interested in expanding their skills and knowledge. The focus of the course will be to introduce the current trends in minimally invasive colon surgery including hand-assisted and laparoscopic techniques. Didactic content will address criteria for patient selection, procedural indications and contraindications, minimally invasive techniques and management of potential complications. Upon completion of this course, participants should be able to: Discuss the evolution of minimally invasive colorectal procedures; Define patient selection, preparation and positioning for minimally invasive colon procedures; Differentiate minimally invasive colectomy procedures for benign and malignant disease; Describe current indications and contraindications for minimally invasive colectomy procedures; Discuss the management of complications and the potential to convert to an open procedure; Demonstrate minimally invasive techniques for colorectal surgery in a faculty-guided dry-lab.

FACULTY:

Leslie Browder, MD, FACS, University of Nevada School of Medicine, Las Vegas, NV

Bryan N. Butler, MD, FACS, FASCRS, Clinical Assistant Professor, Section of Colon Rectal Surgery, State University of New York at Buffalo, Buffalo, NY

Jim Lau, MD, FACS, Assistant Professor, Assistant Program Director, Chief Division of Bariatric Surgery, University of Nevada School of Medicine, Las Vegas, NV

Larry S. Sasaki, MD, FICS, Assistant Clinical Professor of Surgery, Louisiana State University Medical Center, Shreveport, LA

Introduction and Overview

MINIMALLY INVASIVE SURGERY MEDICAL INNOVATIONS (PART I)

FRIDAY 8:00AM -10:00 AM **JUNE 6, 2008**

This course is designed for physicians who are increasingly incorporating minimally invasive surgical techniques (MIS) into their practices. Presentations will focus on patient selection, appropriateness for a MIS approach, controversies and contraindications of using such approach, and data-driven results of the use of MIS approaches for various operative procedures. Advances in imaging, robotics and virtual reality and how it will change surgical education and practice will also be discussed.

Moderators

Anthony Dardano, Jr., DO, FICS, Chief of Staff, Del-ray Medical Center, Vice-Chief of Surgery, Boca Raton Community Hospital, Boca Raton, FL

Yeon-Jeen Chang, MD, FICS, Providence Hospital, Southfield, MI

SURGERY: BEYOND TRADITIONAL ABILITY

ORTHOPAEDIC SURGERY ALTERING THE MODE OF TREATMENT

FRIDAY 8:00 AM -12:30 PM JUNE 6, 2008

This course, presented in cooperation with the American Fracture Association, will examine the current trends in the treatment of fractures with a special emphasis on “long bone” fractures and treatment with intramedullary nails and locking plates.

MODERATORS

TRANSPLANTATION

FRIDAY 10:15 -NOON JUNE 6, 2008

This session will open with a look into the “business” aspects of transplant surgery and the exploration of related cost issues, including the evaluation of cost-effectiveness and the benefits of new technology. Scientifically, this program will update surgeons on the latest developments in several of the “transplant” arenas including practice technique, procedure, instrumentation and patient safety.

MODERATORS

Cataldo Doria, MD, FICS, Associate Professor of Surgery, Director, Division of Transplantation, Jefferson Medical College, Thomas Jefferson University Hospital, Philadelphia, PA

70TH ANNUAL SURGICAL UPDATE CONCLUSION

Closing Remarks

Vijay Mittal, MD

THE AMERICAN ACADEMY OF NEUROLOGICAL AND ORTHOPAEDIC SURGEONS

The American Academy of Neurological and Orthopaedic Surgeons will present their 32nd Annual Scientific Meeting on Saturday, June 7.

ICS-US Fellows are invited to take part in this additional program that will include presentations on Orthopaedic and Neurological Surgery.

Gala Banquet

As the day ends and the sun sets this event will mark the end of our 70th Annual Surgical Update. After an invigorating week of business meetings and scientific activities we cordially invite you to spend your last night in Reno dining and dancing the night away.

June 7

6:30 pm

Black tie optional

Tickets should have been ordered in advance. On-site tickets are extremely limited, and may not be available for order during the meeting. Please see the staff at the Registration Desk to inquire about ticket availability.
